EDUCATION

University of California, Riverside

Riverside, CA

Bachelor of Science, Computer Science with Business Applications

- GPA: 3.77
- Relevant Coursework: Python, C++, Data Structures and Algorithms, Machine Organization and Assembly, Discrete Structures, Linear Algebra

TECHNICAL SKILLS

- Programming Languages: C++, Python, Javascript, Go, Kotlin, Java Assembly, HTML, CSS, SQL
- Developer Tools: Git, Version Control, Vercel
- Technology: Next.js/React, Tailwind CSS, Jetpack Compose
- Databases: MySQL, PostgreSQL, SQLite

PROJECTS

Personal Website

Dec 2024

Next.js | React.js | JavaScript | HTML | Tailwind CSS | Vercel | Git

- Developed portfolio using React 19/Next.js 15 with AI chatbot integration using OpenAI embeddings for project Q&A.
- Built custom CSS animations (neural networks, particles) and React hooks for scroll based interactions and navigation.
- Implemented responsive design with modern UI effects, deployed on Vercel with optimized performance.

Point-of-Sale Software

Nov 2025 - Present

PostgreSQL | SQLite | GoLang | Kotlin+Jetpack Compose | Git

- Contributed to the development of an offline-first Point-of-Sale (POS) system using Kotlin (Jetpack Compose) for the client and Go + PostgreSQL for backend services.
- Implemented and maintained SQLite-based local persistence to ensure uninterrupted order processing during network outages.
- Collaborating with junior engineers to design RESTful APIs enabling secure synchronization between local devices and cloud devices.
- Assisted in building data synchronization workflows to reconcile offline transactions with cloud databases.
- Participated in architecture discussions, code reviews, and debugging sessions to improve system reliability and maintainability.

EXPERIENCE

Jeo Jac Keo Ri Korean BBQ

Server

Hawaiian Gardens, CA

October 2022 - August 2024

- Served customers by taking orders, delivering food, and managing table service.
- Managed POS systems and coordinated with the team to ensure smooth service flow during busy periods.
- Worked with the team on closing duties including counting cash drawers, inventory restocking, and preparing for next shifts.

HOPE Global Outreach Foundation

Member

Cypress, CA

September 2019 - June 2023

- Volunteered with non profit organization supporting underprivileged children through community events and global initiatives.
- Contributed over 500+ volunteer hours over four years supporting local and international outreach efforts.
- Organized community service projects and fundraising activities, including park cleanups and recycling drives, with a team of 20+ members.
- Developed fundraising strategies and campaigns that raised over \$10,000 for children programs.
